Sow Justice - Reap Peace

Farm Workers' Rights

March is Farm Workers' Rights month. In the United States today there are between 2.5 and 3 million farm workers, and 500,000 of these workers are children. Work conditions, wages, and safety are major issues for these workers. The National Farm Worker Ministry is supported by PC/USA as an advocacy group for improving the lives of these often forgotten workers. Check E-Focus for more information, related resources, and opportunities for action.
